GENERAL ACCOUNTING PRINCIPLES FOR THE PREPARATION OF THE ANNUAL ACCOUNTS

We have compiled the financial statements using the accounting policies as included in generally accepted principles for financial reporting in the Netherlands.

The annual accounts have been prepared based on the historical cost and the Accounting Principles of RJK C1 "kleine organisaties zonder winststreven" of the Dutch standards on reporting. Valuation of assets and liabilities and determination of the result take place under the historical cost convention.

The formation of by the Board designated intended reserves take place at the expense of the Statement of Income and Expenses Account. The intended reserves will be separately presented within the foundation capital.

Income and expenses are allocated to the year to which they relate. Profits are only included insofar as they have been realized on the balance sheet date. Liabilities and possible losses that originate before the end of the reporting year are taken into account if they have become known before the preparation of the annual accounts.

ACCOUNTING PRINCIPLES APPLIED TO THE VALUATION OF ASSETS AND LIABILITIES

Cash

Cash and cash equivalents are valued at nominal value.

Current liabilities

On initial recognition current liabilities are recognised at fair value. After initial recognition current liabilities are recognised at the amortised cost price, being the amount received taking into account premiums or discounts and minus transaction costs. This is usually the nominal value.
